## **Eduroam**

Eduroam is a secured wireless network service that allows University of Maryland students, faculty, and staff to visit sites of participating organizations and while there connect to a secure wireless network utilizing their home organization credentials. This service allows users to have wireless access from multiple locations without having to set up guest accounts.

# eduroam

## For University of Maryland Students, Faculty, and Staff

- It is strongly recommended that you login to the Account Management Site @ <https://directory.umaryland.edu> to verify wireless connectivity and network access.
- Students, faculty, and staff will login to the eduroam network using [UMID@eduroam.umaryland.edu](mailto:UMID@eduroam.umaryland.edu). If your UMID is jdoe you will type [jdoe@eduroam.umaryland.edu](mailto:jdoe@eduroam.umaryland.edu). This username will also be used to grant access to eduroam at participating locations.

## For Guests to the University of Maryland Campus

- If you plan to visit the University of Maryland from another eduroam participating institution, you should configure eduroam on your device before you travel to verify connectivity.
- You'll be using your home institution's user name and password system to connect to eduroam. You will need to contact your home institution for help or support, and to obtain setup instructions particular to your institution.
